DETAILED ACTION

Informal Examiner's Amendment

By way of this informal Examiner's amendment, the following changes are made in the specification for the purpose of updating the patent application cross-reference data.

- A.** In the section entitled "Cross-Reference to Related Applications" on page 1, line 2, insert the phrase --now U.S. Patent No. 6,689,490 B2,-- immediately after the year "2003,".
- B.** In the section entitled "Cross-Reference to Related Applications" on page 1, line 3, insert the phrase --now U.S. Patent No. 6,663,981 B1,-- immediately after the year "1999,".

Terminal Disclaimer

The terminal disclaimer filed on July 6, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,663,981 (Weber, et al.) has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 1 to 25 are allowed.

The following is an examiner's statement of reasons for allowance: The patent application is in condition for allowance because the applicants have filed a Terminal Disclaimer in order to overcome a rejection of claims under obviousness-type double patenting. Hence, the Examiner withdraws the rejection of all claims under obviousness-type double patenting. Also, the applicants have amended claim 1 in order to overcome the claim objection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
